

Windy Mindy by David Walliams adapted by Sarah Townsend

Mindy was very windy, in fact she had an art of, bottom burps honkers or trumps you might know them as farts.

Fart noises

She could do loud ones, long ones, silent ones, ones that sounded like machine a gun, this would cause chaos as to escape the smell people would run

Fart

In order to keep this up Mindy would eat anything, mushy peas prune juice, turnips, cabbage and huge amounts of baked beans.

Cabbage or any food

Where ever she went whatever she did she would stand there and let one rip!

Loud Fart

Windy Mindy upset all the teachers, she was sent out of maths because of terrible sound, the pong made Miss Ping faint and fall to the ground.

Egg smell

One day Mindy hid in the music class to get out of doing work, she discovered all sort of instrument but the wind ones made her smirk.

Recorder or whistle or youtube music

She found a tuba, she placed her bottom on the end and blew as hard as she could she discovered the sound that came out of the tuba was really rather good.

In fact the music sounded sooooo cool, MR Tinkle the music teacher planned a show at the Royal Albert hall.

Orchestra warming up <https://www.youtube.com/watch?v=HhW0rbiZBRI>

Before the show Mindy ate and drank as much as she could stand, she bounced and bounced on the trampoline and soon her farts started to land.

Bounce – Use a ball bounce up and down, help the young person to bounce the ball

All the audience were ready for the musical rave but the smell that was created hit them like a tidal wave.

Smell eggs

By now Mindy's bottom was making wind at such a pace that she was capitated out through the roof into dark space and was gone without a trace.

Darkness/Silence
